RESOLUTION of the Polish Bar Council March 25, 2017

The common goals and values of European integration, as declared in the Treaty of Rome, are the basis for peace and solidary development of countries and European society.

On the sixtieth anniversary of the adoption of the Treaty, Polish Advocacy expresses respect for their importance to the development and cooperation of the European countries family.

Polish Advocacy emphasizes that participation in the community of the European legal order requires public authorities to respect the standards resulting from such order, especially in the sphere of the protection of human rights and fundamental freedoms.

Advocate Jacek Trela

President
The Polish Bar Council
